

# Mock ACT & SAT Exams

Educational Connections is proud to partner with the **Madison High School PTSA** to offer full-length practice **ACT & SAT exams!**

## Why a Mock Test?

Mock tests help determine which test is right for your student. They also provide a baseline score to identify their natural strengths and weaknesses in a simulated testing environment. From this baseline score, we are able to develop a personalized test prep plan for each student. To get the most accurate results, we only use official full-length tests published by the College Board and the ACT.

**All students will receive a full score report and a optional free consultation after the test.**
